SUMMARY

Associate Account Manager at Mitsubishi HC Capital Canada (Sept. 2025 – Oct. 2026) who carried a vendor-finance book and built the desk's own tooling for quoting, document automation, and collections analytics. Credit, amortization, and portfolio fluency, plus the engineering to put them to work.

EXPERIENCE

Associate Account Manager, Equipment Finance

Sept. 2025 – Oct. 2026

Mitsubishi HC Capital Canada

Burlington, ON

- Carried a vendor-sales equipment-finance book across construction, transportation, and material-handling assets: funded **over \$4M against a \$2M monthly new-business target** (200%+ attainment) in each of April and May 2026; over quota every month since month two in the seat.
- Managed **10+ vendor relationships** across Ontario, Alberta, BC, and Quebec; typical tickets **\$100–250K**.
- Structured FMV, capital, and vendor-finance transactions and built the credit submissions behind them: spread financials, calculated debt ratios and FCCR, and prepared four-block submissions for adjudication, managing deals from quote through documentation and funding, tracked in Salesforce.
- Co-designed, with two colleagues, the collections risk scorecard the business approved in Aug 2026, now **in pilot**: it scores and ranks all **2,079 live delinquent contracts**, reordering **73%** of the top 100 against a plain balance sort, on NSF and term risk multipliers derived from a **six-year** delinquency history and validated on a customer-grouped holdout.
- Reverse-engineered each manufacturer's lease and subsidy math into a bilingual quoting engine spanning **14 manufacturers**, built to replace **13 Excel calculators** (30–45 sheets each); validated against **45 funded deals** to within half a cent behind a **1,370-test** suite, then handed to corporate IT, which now owns it.
- Built an advisory AI validation service for pre-funding document review that returns a READY / NOT READY verdict at a **median of 4.9 minutes** over 56 runs; carried it through the company's internal innovation program.

Founder

Jan. 2024 – Present

SKomp Studio

Remote

- Founded a software studio and built its flagship client platform (Solstice Pilates booking and payments, solsticepilates.ca) solo: **\$45K+ CAD processed** across **1,380 bookings** for 640 registered users.
- Coached **100+ learners** through technical-interview preparation in the studio's mentorship arm, taking each engagement from acquisition through delivery.

Junior Web Developer

May 2021 – Jun. 2022

Giftcash Inc.

Remote

- Built payout and gift-card valuation services on a Node.js / AWS Lambda stack and automated balance verification across providers, replacing manual per-card checks.
- Migrated the legacy platform to serverless, tuned the PostgreSQL database on its heaviest queries, and automated releases with Jenkins and GitHub Actions CI/CD.

SKILLS

Finance & Credit: Equipment & lease structuring, credit analysis, amortization math (PMT/PV/FV/RATE/IRR, TValue-validated), subsidy & blended-rate modeling, credit-scorecard & recovery modeling

Tools: TValue, InfoLease, Salesforce, Excel (advanced), Power BI, SQL

Engineering: TypeScript, Python, Next.js / Node.js, PostgreSQL, workflow automation

PROJECTS

Personal Agentic OS · self-hosted automation platform | *Python, TypeScript, Claude*

2026

- Run the infrastructure behind the document-validation service above: a private platform of **60+ scheduled automations** across a mesh of machines, monitored from a custom iOS app.
