Equipment & Vendor Finance · Credit & Portfolio Analytics

Burlington, ON | +1 (289) 788-8260 | [suley.kiani@outlook.com](mailto:suley.kiani@outlook.com) | [linkedin.com/in/suleyman-kiani](https://www.linkedin.com/in/suleyman-kiani) | [suleyman.io](https://suleyman.io)

## SUMMARY

---

Vendor-finance Associate Account Manager at Mitsubishi HC Capital Canada with an unusual edge: alongside carrying the book, I build the desk's own tooling for quoting, document automation, and collections analytics. Credit, amortization, and portfolio fluency, plus the engineering to put them to work.

## EXPERIENCE

---

### Associate Account Manager, Equipment Finance

Sept. 2025 – Present

*Mitsubishi HC Capital Canada*

*Burlington, ON*

- Carry a vendor-sales equipment-finance book across construction, transportation, and material-handling assets: funded **\$4M against a \$2M monthly new-business target** in April and May 2026 and have exceeded quota every month since my second month.
- Underwrite and structure FMV, capital, and vendor-finance leases and loans, working deals from quote through credit submission, documentation, and funding.
- Designed a predictive collections scorecard with the credit and portfolio teams: it auto-triages low-risk accounts and ranks the rest by recovery priority across about **\$17–18M** of assets in recovery. Each one-point lift in the portfolio recovery rate is worth about **\$1M**; owned the business case and won approval.
- Reverse-engineered each manufacturer's lease and subsidy math into a quoting engine spanning all 11 product lines, replacing **13 abandoned Excel calculators** (30–45 sheets each) and matching **TValue** to the penny.
- Cut power-of-attorney and pre-funding package turnaround **to minutes** with a document-validation service that now audits deal packages unattended; carried it through the company's first internal innovation review.
- Build Power BI portfolio and variance analyses for the desk's reporting.

### Founder

Jan. 2024 – Present

*SKompXcel Academic Solutions*

*Remote*

- Founded a coaching practice and own its client pipeline from acquisition through delivery; **100+ learners** coached through technical-interview preparation.

### Junior Web Developer

May 2021 – Jun. 2022

*Giftcash Inc.*

*Remote*

- Built payout and gift-card valuation services on a **Node.js / AWS Lambda** stack and automated balance verification, replacing manual per-card checks.
- Migrated the legacy platform to serverless, tuned the PostgreSQL database on its heaviest queries, and automated releases (CI/CD).

## SKILLS

---

**Finance & Credit:** Equipment & lease structuring, credit analysis, amortization math (PMT/PV/FV/RATE/IRR, TValue-validated), subsidy & blended-rate modeling, credit-scorecard & recovery modeling

**Tools:** TValue, Excel (advanced), InfoLease, Power BI, SQL

**Engineering:** TypeScript, Python, Next.js / Node.js, PostgreSQL, workflow automation

## SELECTED PROJECTS

---

### Solstice Pilates · booking & payments platform built solo | *Next.js, Prisma, Square*

2025 – Present

- Designed and shipped a studio's **entire booking-and-payments platform** solo (Square payments, recurring memberships): **500+ users** and **\$20K+ CAD processed**.
- Found and fixed revenue-losing payment bugs in production, including a \$50 discount mis-stored as **\$5,000**.

## EDUCATION

---

### McMaster University

Hamilton, ON

*MEng, Computing & Software (in progress, Year 1 complete)*

*Sept. 2025 – Dec. 2026*

### McMaster University

Hamilton, ON

*BASc (Honours), Computer Science*

*Sept. 2018 – Nov. 2024*
