SUMMARY

Equipment-finance professional who also builds the tooling the desk runs on. At Mitsubishi HC Capital I carry a vendor-sales book funding **200% of monthly new-business target** and reverse-engineered manufacturer lease and subsidy math into a quoting engine that **replaced 13 Excel calculators** and matches the industry-standard **TValue** to the penny. I pair credit, amortization, and portfolio fluency with the ability to ship the software that operationalizes them.

EXPERIENCE

Associate Account Manager, Equipment Finance

Sept. 2025 – Present

Mitsubishi HC Capital Canada

Burlington, ON

- Carry a vendor-sales equipment-finance book across construction, transportation, and material-handling assets: funded **\$4M against a \$2M monthly new-business target (200%)** and have **exceeded quota every month since my second month**.
- Underwrite and structure leases and loans across **FMV, capital, and vendor-finance structures**, working deals from quote through credit submission, documentation, and funding.
- Designed a **predictive collections scorecard** with the credit and portfolio teams: it auto-triages low-risk accounts and ranks the rest by recovery priority across about **\$17–18M in recovery**, where **each 1% of recovery improvement is worth about \$1M**; owned the business case and won approval.
- Built an **AI document-validation prototype** for deal-funding review and carried it through the company's first internal innovation review; it now audits live deal packages unattended and turns power-of-attorney and pre-funding packages around **in minutes**.

Founder

Jan. 2024 – Present

SKompXcel Academic Solutions

Remote

- Founded a mentorship practice and have coached **100+ learners** through algorithms, systems design, and interview preparation, owning the client pipeline end to end.

Junior Web Developer

May 2021 – Jun. 2022

Giftcash Inc.

Remote

- Built payout and gift-card valuation services on a **Node.js / AWS Lambda** stack and automated balance verification, replacing manual per-card checks.
- Migrated the legacy Django monolith to serverless, tuned **PostgreSQL** on hot read paths, and stood up **CI/CD**.

SKILLS

Finance & Credit: Equipment & lease structuring, credit analysis, amortization math (PMT/PV/FV/RATE/IRR, TValue-validated), subsidy & blended-rate modeling, credit-scorecard & recovery modeling

Tools: TValue, Excel (advanced), InfoLease, Power BI, SQL

Engineering: TypeScript, Python, Next.js / React, Node.js, PostgreSQL, multi-agent automation, payments integrations (Square, Stripe)

SELECTED PROJECTS

Personal Agentic OS · multi-agent automation for real document workflows | *Python, TypeScript, Claude*

2026

- Built and run a **self-hosted multi-agent system** automating the document side of equipment finance: email-triggered services that validate funding packages and produce power-of-attorney and registration documents **in minutes**, ready to file.

Solstice Pilates · booking & payments platform built solo | *Next.js, Prisma, Square*

2025 – Present

- Designed and shipped a studio's **entire booking-and-payments platform** solo (Square payments, recurring memberships): **500+ registered users**, **\$20K+ CAD processed**, and **revenue-losing payment bugs** caught and fixed in production.

EDUCATION

McMaster University

Hamilton, ON

MEng, Computing & Software (in progress)

Sept. 2025 – Dec. 2026

- Year 1 complete: **A+ in Simple Type Theory and Microservices-Oriented Architectures**.

McMaster University

Hamilton, ON

BASc (Honours), Computer Science

Sept. 2018 – Nov. 2024
